

EM-933 Indoor/Outdoor Thermo-hygrometer With Jumbo Digital Display

See the indoor or outdoor temperature and indoor humidity from across the room with this jumbo thermometer/hygrometer!

actual size: 4.25"(W) x 4.6"(H) x .75" (D)

Oversize digits, relative humidity icons, and one-touch recall of minimum and maximum readings make this a smart choice for home, office, or anywhere! Internal sensors monitor indoor room temperature and humidity, and displays temperature in °F or °C readings. Detachable weather-resistant outdoor probe simply stretches under a closed window to read outdoor temperature!

Benefits and Features

Benefits:

- Big, easy to see digits show indoor or outdoor temperature, and indoor relative humidity simultaneously
- Easily switch the display from indoor to outdoor data
- Saves minimum and maximum readings in memory until you reset
- Place the sensing tip of the included weather-resistant probe outdoors and know the temperature before you go out
- Fun icons translate the humidity data into expected comfort level

Features:

- Jumbo 1 1/8 inch numbers
 - User-selectable indoor or outdoor temperature display
 - User selectable for °F or °C
 - Constant indoor relative humidity display
 - Flip out table stand, or may be wall hung
 - Sensing Probe for outdoor measurement
 - Memory function stores minimum and maximum temperature and humidity readings
-

Specifications	Metric	English
Operating Temperature (indoor unit)	0°C to 50°C	32°F to 122°F
Temperature measuring range (Indoor)	0°C to 50°C	32°F to 122°F
Temperature measuring range (Outdoor)	-50°C to 70°C	-58°F to 158°F
Resolution of temperature	1.0°C	2.0°F
Temperature units of measure	°C (Centigrade) or °F (Fahrenheit) - User Selectable	
Measuring humidity:	25% to 95% Relative Humidity at 25°C (77°F)	
Resolution of humidity:	1% Relative humidity	
Sensor wire length:	3 meters	9.5 feet
Power:	Unit: uses 1 "AAA" 1.5V battery (included)
